Columbia, SC 29211

Dear Public Service Commission:

I am writing to say that I am strongly opposed to any proposed rate increases. Those of us who are lower income are stretched to the limit already! As someone who has severe rheumatoid arthritis, I have to cut back in order to afford my heating expenses, as the cooler weather is extremely detrimental to my health. Any very low or very high temperatures cause me to suffer more...

Please consider what any increase in costs could mean to us, the customers. Then, just say "no".

Thank you,
Mary E. Funderburk

Dear Sirs:

I am writing concerning SCE + G's proposed rate increase, I am very opposed to this rate increase and do not think SCE + G should get it. It would be a hardship for me, I am 91 years old and have trouble paying my bills now.

I've heard of SCANA paying for boards to eat at Ruth Chris Steakhouse, alcohol, Zumba classes for employees.

I'm very against another raise for SCE + G, I'm very against money being used for that when I and so many others are struggling so hard to keep our lights and heat on.

Sincerely,

Edith D. Tanderburk
